节约时间版：只要看示例就可以，其他不用看

P1-2 是附赠的个人笔记，可以 skip it

论证方法

- 1 因果 连接词: as,since,the reason why,as a result;as consequences;therefore
人称代词 they, 物主代词 their sth 进一步解释 why/reason/consequences
代上面整个句子/分论点: This can benefit that...
代分论点的某个事物: most of this/these +n.
- 2 举例:for example/instance, such as, regardless of whether
- 3 对比:...while...句内;by contrast
- 4 类比: similarly, be more likely to, tend to
- 5 让步:although
- 6 假设虚拟:if..not...;without...not...;..may...;are likely to...;倒装句
- 7 下定义:This means that,in other words, By this I mean
- 8 特定范围展开:specially,to be more specific,

在上面这个官方实例的3句支持句里，**连接词** (if), **代词** (they, them, this), 与**分论点直接有关的名词** (buses, trams and trains) 都起到了让行文衔接更加流畅的作用。如果刻意 (在考官看来也许是恶意) 把每一句话里都“塞满”连接词，效果是不会这样自然、多样化的。

支持句开头最常用的3种方式:

- ▶ 代词 (They, This, This means that ... 等);
- ▶ 连接词 (As a result, Therefore, For example, By contrast, If, Specifically, In other words 等, “果粒对比, 不设下限”: 因果、举例、对比、类比、让步、假设、下定义、限定范围);
- ▶ 名词 (Employees / Students / Some countries / Many advertisements 等, 也常使用定语从句: People who ..., Parents who ..., Advertisements that ..., Buildings that ... 等)

Vince的逻辑是从宏观 (即抽象的归类) 到微观 (对宏观观点的进一步解释) 到微观 (更加细节化的补充) 的论证过程, 他也总结出了七大宏观观点可供参考:

- 1、成效与效率 effectiveness&efficiency
- 2、经济与金融 economy&finance
- 3、环境与健康 environment&health
- 4、平等与公平 equality&fairness
- 5、可行性与兼容性 feasibility&compatibility
- 6、文化与全球化 culture&globalization
- 7、信息和互联网 technology&internet

12条思路清单

Skill	&	Efficiency
Technology	&	Safety
Right	&	Responsibility
Environment	&	Health
Employment	&	Money
Culture	&	Fun

Text2 怎么写

先想主题，这个题目到底在琢磨什么事? (是否要限制背景，为什么要琢磨这个事? (国家越来越多人看

审题:

- 1) 看副词等限定 题干 more and more →突出 decrease/raise 动态
- 2) 看对比.找到两个观点讨论的分歧点。
- 3) 不离题: 首段主题直接单词改写, 防止跑题, 不要改太多。审题看主干。核心词和观点不断扣题, 扣限定条件。不断重复, 主干段结尾因此要扣题一次

论证:

怎么找论点? (一般找2个)

1. 参与者
2. 大环境 (事件发生所处的地方)

解释: 寻找因果关系, 不断问为什么, 找例子: 寻找从属关系, 某个领域, 某个群体
比如: 解释——青少年看了暴力电影之后
例子——一些高中生看了动作片之后,

Distinguish between ideas and facts: 如果一开始想到的点是事实，则很难展开。所以可以思考这个事实的原因，后果。把后果拿来当论点，这个事实推后当论据：

论点举例：

①支持反对的观点：1，这么做有负面影响+具体说下 2，因为这么做不公平+对谁不公平 3，因为这么做不现实，不可能 unrealistic/even impossible 4 这么做夸大了 **blow the things out of proportion** 低估了效果作用影响，

②完全赞成：1，为什么做 A，A 的好处 2，为什么不做 A 的替代，列出缺点

→论点（+可选展开：解释论证方法 78/或者把论点中的动词，抽象名词，复数名词都解释一遍。再后续论证）。

分析：**generally speaking** 背景（社会情况，人群现状）→理论论证：主体做了什么，有什么影响→论证方法 6/论证方法 3 对比（当文章出现比较级或者对比的对象时）；或→举例论证：具体说，举例

→因此，我认为 细化论点，并扣题→（凑字：论证方法 6）

• 中心句——用来阐述观点；总论点、分论点都能用这类句式

a. 人 做什么事，人 可以怎么样

·If sb. do sth. , they/其他受影响的主体 could ...

eg. 人们上网课可以节约时间。

If people take lessons online, they can save time.

·It is positive for sb. to do sth. in terms of 具体哪方面

eg. 学生学习文化，他们可以理解文化多样性。

It is positive for students to learn cultures in terms of understanding cultural diversity.

·Sb. who do sth. can do sth.

eg. 人们经常锻炼身体可以保持健康。

People who exercise regularly can keep fit.

b. 人 做什么事，which 可以怎么样

eg. 政府提供免费教育，这有助于培养更多人才来发展经济。

The government provides free education, which helps to cultivate more talents to develop the economy.

c. 做什么事 会导致 怎么样

eg. 文化融合会导致传统文化特征的消失。

Cultural integration will lead to the disappearance of traditional cultural characteristics.

论点常用句型：

Sth/doing sth tends to have a favorable//an t
Sth/doing sth may exert positive/negative in
Sb will be affected positively/negatively by

Watching violent movies brings negative im
Teenagers may suffer bad effects from watc
Bad effects may occur when the youth are a
There are bad effects on teenagers if they ar
It is bad for teenagers to watch violent movi

↑换了 3 个主语（人物 doing）+there be

+it is adj for sb. To do/it is adj. that

还有+who 分词 doing/done 做定语

+which 和分词 doing 表结果

+主从 what interest sb. 强调句、让步状语

+how to do /what I need

中心句表达要丰富

Vince 让步段论证思路：先论证不合理不赞同/或者从 **feasibility** 角度说明，比如说贵或者浪费钱→钱是有预算的，是可以合理安排的(financial aid)+这也是政府的责任之一（humanistic care）→反哺：这也可以创造就业岗位（create more job opportunities）支持相关企业（support related corporations / The upstream and downstream of industries, **form a virtuous cycle** in XX 促进经济增长（**a great boost** to economy/promote economic development）/ the money charged from XX can be used to **subsidize** citizens to visit with cheaper or free entry/ admission + collect a fund of **restoration** for a more appealing attraction to more visitors. +example: Numerous worldwide studies have shown XX is way more expensive than college tuition and 机会成本 **opportunity cost**.

提分点：

1 每个论点后直接跟一句展开。把观点说透

2 多用举例

举例要有普适性：加上修饰词，a typical XX among thousands/be similar with others/ be the same as everyone else

（以上两点同口语 part3，可以多联系）

3 Idea 不能牵强，不能被找出很多例子来反驳。这个时候用论证方法 8，加上限定，特殊修饰词，同位语。论证方法

8 特定范围展开，多用定语←增加说服力

With a balanced diet, people may have enough nutrition and energy to deal with their jobs effectively, which is particularly crucial for those engaged in physically demanding occupations/jobs/careers/professions/vocations, so that they could make a lot of money.

4. 时态丰富：完成时，现在进行时

5. 词汇丰富，尽量不重复出现名词，同义替换。538+179+笔记

6. 句式丰富：

Task2: 从句（条件和让步状语从句（if+ might, despite, as long as），there be 定语从句，主语从句，强调句，分词，no matter especially that's why）】

Task1: 主语丰富 there be, 想要描述的名词做主语 has increased dramatically, 时间/地点 has witnessed dramatic increase, 被动句（尤其是流程地图题）done/doing 做后置定语+定从, In which 等非限制性定语从句

the percentage/amount of coal → **30% of electricity derived from coal is witnessed at the bottom of A. standing at 5. v=the electricity that produced by coal/due to... accounts for 30%, slightly higher than...(2)**

→ **In 2000 Australia used coal as the main electricity source (5), compared with B that...By/Until 2000, coal had become the fuel for more than 75% of electricity produced and ...v**

doing 结果状语, what 等

用 while, with, compared with, accompanied with, 连接 2 个短句，一句话至少 2 个数据一个在定语一个在主体。努力同时描述多个主语

7, 凑字数: 多角度改写 idea: 论证方法 67, 即提分点 13 和正面改写

英语三句型:

1. 主谓宾（换句型，变主语，找名词）
2. There be +n.
3. It is adj for sb to do sth
4. It is adj that 句子

Link words !!

make XX more adj. 中式英语 × → boost/Promote/enhance XX make it easier for sb. to do sth.

Exercise can build up=strengthen my body

enliven=spice up 使更有趣 rejuvenate 使变年轻 shrink 使更小 enlarge 使更大

Be conducive to my health=contribute to +beneficial to

Be harmful to= be detriment to = jeopardize (hinder block hamper suppress constrain refrain restrict limit

be accustomed to =get used to doing

Use ☞ capitalize on= **utilize** best/good/favorite/ideal ☞ coveted

famous ☞ pride itself on Improve → optimize However → while, **whereas**

形容数量:

● by far the most successful/popular/important 替换数量最多

● top five, five highest ranking, was ranked highest 最高

e.g. top five countries for international tourism, the five highest ranking countries in terms of the numbers of visits

● be the main/primary source of electricity 主要的, 替换数量最高

e.g. Just one year later, nuclear power overtook thermal power as the primary source of electricity.

● stand at 是多少, 替换 be 动词

e.g. In 2000, worldwide sales of handheld games stood at around \$11 billion.

● tend to be 替换 be 动词

e.g. The figures for gold, silver and bronze medals won by any particular country tend to be fairly similar.

● record 是多少, 用于换主语

e.g. By contrast, commuter rail services recorded by far the lowest figures.

Task1

图表

注意过去、将来时。Bar 转换成 line 来写。静态图多了倍数关系

必须明确主语 是 production、yield、sales data、design、spending/cost、waste 、electricity,而不是 smart phone 、国家、核电站

1, 首句改写倒装。given/provided is a 图表 illustrating 等同替/ Illustrated in the 图表 is

① the changes/ variations in XX /the differences between XX and XX /

② how +the valuable information/ the details about/ concerning/ regarding XX / the number/data/amount/quantity/figure presented in XX/ figure for XX changes

③ how many XX (the statistics) were consumed/produced/were emitted/shops opened yearly
what the proportion/percentage of XX were consumed

+in 地点 disparate countries as for=in terms of=, including = specifically regarding 数据组...+between 时间的同替 + as well as projected / predicted figures for the year... (如果有将来时的话)

2, 整体趋势: 趋势分组描述(相同不同 continuously 升降 all the way, 保持稳定, 波动), 最值 (P4 和别人比最大的最小的主要的受欢迎的, 自己比顶点底部), 不变+排序;
谁比谁高, 正负相关无关(the amount/quantity suggest a strong positive/negative correlation/relationship between A and B, as one rises but the other declines
Pie 独有→最值(be dominated by), a bit more diversity in。

Overall/ in general/generally, ① it is evident/noticeable from the two pictures ② it could be obviously witnessed in two picture that ③ As can be apparently indicated from the two pictures,

.....that 上升+时间(../initially/the first/initial decade+ there be an considerable/ fluctuating upward trend / Co2 discharge/emission in 数据组 showcased/saw/experience a dramatic growth/maintain a consistent upward tendency in.. / The number of... experienced a slight/moderate/major decline/increase during.../ The rate of increase/decrease between... and... was considerable/ significant/ minor

while/ nevertheless/by contrast / On the contrary/whereas/conversely/ in comparison to that of/ only 10% of those doing

下降 there's a tendency to drop/ a downward trend in 数据组/the figure for 数据组 indicated a trend of decline / This population decline is a trend for 数据组+时间

A downward trend was clearly witnessed by the **proportion** of XX / 35% of XX was seen in ..

/35% was recorded for XX /the **share/ small portion** /distribution/ possession rate of 35% was recorded for XX

What 'more/furthermore, 最值的表达 by far: XX produced the **by far** the most/lowest/least adj./ the largest amount/number of Co2 emission +时间/ Co2 emission is **recorded by far** the lowest/least amount of../figures / it's ranking is by far the lowest/ **tend to** be by far the highest/ the top/ the **primary**/main source of../ ranks=comes= be ranked-the

first/highest by far /the highest ranking belongs to= is found in XX ,reaching its bottom/peak point **standing at..**

主体：如何分段：单图且对象少：按照描述对象分段（the former and the latter）；单图对象多：按照趋势、高低、对象性质分段；多图：可上同，可按图分。

每条线，每个组都要说到（学习同时说几个数据 **the former.. the latter...**）

3, ④ **Looking at/Upon analyzing /according to/based on/from/in/ the data presented in the form of 图表 the (first) diagram/picture, we can obviously/apparently/clearly see/conclude/ witness/observe in details that** ⑤the chart/graph suggests/gives/offers the insight that.....（合计 5 种表达看图的方式）

there be...used to be..., before which it saw a .. by.../followed by a .../with a ..following/and then/subsequently... Meanwhile...翻倍 to/顶点底部 at...as well/alike, although initially experiencing more modest growth from..to../while it remains the lowest/highest/minimal/maximal. **Concerning the data of train users**, it had a...

4, **Compared to that/in comparison of XX/on the other hand /Turning to the second picture, according to/based on the quantity displayed in the graph, it can be palpable and noteworthy /clearly seen that, the figure for XX demonstrate an opposite tendency, rising from ..to...Similarly,...also..., despite to a smaller/larger degree/extent**←找 2 条趋势和 3 相反，但是幅度不同的with projections indicating a further increase to about Y by 2040.

↓ 被动、一般时，完成时（once/until）

地图题

时间点如果是 in the present day 用现在完成时

1, (无变化) **given/provided is a map illustrating what (a particular urban area/region/city) looks like +时间, involving various features such as structures, landmarks, body of water and the like.**

(有变化) **given/provided are two maps illustrating /highlighting how (地方) will change notably/ what took place notably in(地方) from.. to .../displaying the estimated changes of(地方)+将来时间**

2,**that** Over time/with the time goes on/**with the passing of time, there will be several remarkable updates/developments, resulting in the layout/ landscapes of [地方] having changed insignificantly/** some great changes having taken place, **in which XX disappear/appear in 改变后的时间 but ... is/are well preserved.**明显变化和不变的东西

3, **Looking at/according to/based on/from/in/ the features presented in the form of picture in details, One notable feature of the map is the presence of XX in the south of the town, accompanied by....in a central region of X are four farms each with a new laboratory constructed. Additionally, there are several green spaces and parks scattered throughout the town, as well as a number of XX can be found.**

During the period, the xxx area has experienced **substantial growth and improvement**, including **A was replaced by B with D while C expanded/enlarged twofold/ C doubled in size.**

4, **In comparison of the southern part of the map/moving on to/turning to the second map, according to the changes demonstrated/ that have taken place in the map, it can be clearly seen that the north of the town seems to be more densely populated.** In close proximity to xxx, one can find the yyy. **Bordering the XX to the south lies the XX** 南部与XX接壤的是XX

Apart from that, a park has been developed/built/established/constructed to the north of the xx/in the western part of xxx, which is **adjacent/opposite** to B

流程图

必须写到每一步，时态一般现在时，被动

1, **given/provided is a flowchart illustrating the valuable information about**(同替同上) the process of/intricate/complex details of how sth. is done/ how to produce/create sth. and what raw materials and facilities are involved, providing a comprehensive overview of its components

2, **generally,...**(同上略)**that the whole process can be meticulously broken down into at least/contain/consisted of totally 几个 distinct phases/process/stages/steps, starting from.. and ending at.. Each of these stages plays a pivotal role in the overall sequence-**

34, 材料+ be done + in/by + 工具

stages and steps:

.....**that** the first step of the first stage in the process/ procedure is to do sth and then to do sth. Subsequently in the third step, sth is done.

Following this, the second stage starts with/from doing sth, which is followed by doing sth. The next step in this stage is to do sth and then to do sth. Meanwhile/at the same time,

After that/next comes third stage/at the third stage shown in the diagram, sth is done before doing sth.

The last stage includes 几个 steps: first to do sth and then to do sth.

Only step:

... that the process starts from doing/n, during the initial phase, xx is done/, which is followed by doing sth. The third step starts with doing sth, where/ in which they stay for 2 days.

After that/ after xx step / Following this, sth is done, before/after being dried for 2 days.

When/Once forth step is completed, sth is done until sth is sent to... After which/ in the subsequent step, sth is done. In/entering the final step, sth is done/ doing is the last step in the **procedure, which makes the end/finished product/cycle**

Once third step is accomplished/finished/completed / Upon completion of the third step, the process moves on to the final step. Specifically,...To complete the procedure, the finished/end product is stowed/ packaged in separate bags. Once the products have been packaged, they are delivered to the construction sites

循环的：最后加一句，The process **recurrently loops back** to the initial phase, ultimately contributing to /maintaining a continuous cycle of operation.

表示直接流程：

Commencing with the **initiation** of xx 东西，从 xx 东西开始 the progression then methodically transitions a series of intricately interwoven stages，该过程有条不紊的进行着 culminating in the finalization at xx 一直到 xx 部分结束

表示分叉流程：

Once reaching the juncture at xx 一旦到了 xx 步骤的分支 the process bifurcates，整个流程就分散了 giving rise to two different pathways

：one leading towards xx 东西 and the other navigating towards xx. 东西整个流程就分为了两部分，一部分到了 xx 路上面，另一部分到了 xx 路上面

表示循环流程：

A cyclic pattern is unmistakably 就无法出错，with xx recurrently looping back to xx 循环回到了 xx 东西，thereby perpetuating a continuous cycle of operations. 某个步骤一直会循环到某个步骤

段 4: 具体流程

Moreover,

Before advancing to the next phase，xx occurs 在进入下一个步骤之前，xx 事情发生了

Once xx is finished，the process moves on to xx 一旦什么东西结束了，这个流程就到了 xx 上面

In the mean time 同时，xx is happening alongside xx xx 和 xx 同时发生

自然周期

1, **Given/provided is a diagram illustrating the valuable information about how the XX is growing up and what happens throughout his life**

2, **Generally,...(同上略)that the whole life of (生物名称) contain/consisted of totally 几个 main life stages where We can obviously concluded that the complete life cycle lasts for 几 days between birth and death and the development of the..., from eggs to mature adult ... (如 insect, worm) .**

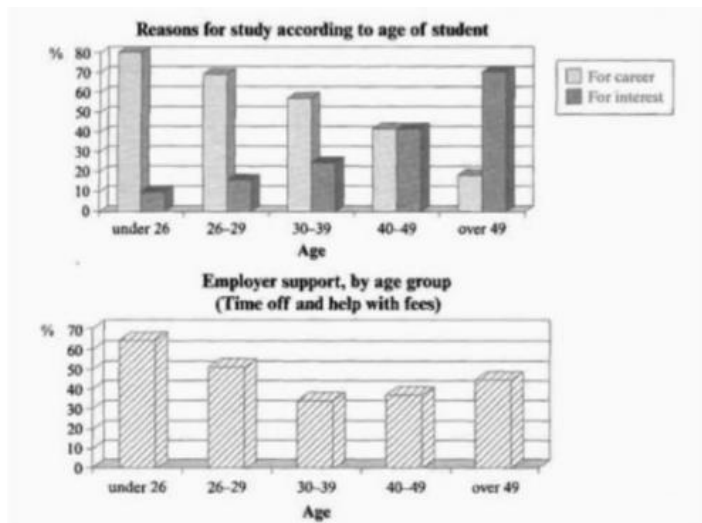

3, ..., the life cycle of the...begins when...(the female adult lays an egg). Between...and...days, later, each egg **hatches** and the **immature...** appears.

4, **according to/based on the graph, it can be clearly seen that,....During the...stage of the life cycle, ...grows in size and weight/height.... ..., then...days later,.....After a total of ...days from the start of the cycle, the young adult..., and....days later it reaches full maturity**

Text1 practice

柱状图:

The charts below show the main reasons for study among students of different age groups and the amount of support they received from employers. Summarize the information by selecting and reporting the main features, and make comparisons where relevant. You should write at least 150 words.

Given are two bar graphs illustrating ~~the changes for the reasons/~~ disparate purposes why different generations choose to study and what the level/rates of corporate aid presented in the second one is, involving time and financial assistance for various age groups crowds/ranges/categories/ bracket ranging from below 26 to over

Generally, as can be apparently indicated from the two pictures, there is a ~~considerate~~ considerable decrease among individuals studying for career with the increase of/in age/ as they age/ as age increases/rises, while the ~~folks~~ individuals who are interested in study are getting more and more→ while the number of individuals interested in studying is increasing/those interested in studying are growing in number, where the group of under 26 is at the bottom compared with the over-49 group reaching the peak point. Furthermore, the companies demonstrate by far the strongest support for the younger crowd.

Upon analyzing the data presented in the form of those two diagram, we can obviously observe in details that the figures for the group learning for the development of occupation maintain a consistent tendency of

significant drop from fourth fifths to just less than one fifth. Similarly, the aid from the owners of firms experience a dramatic decline from the youngest group that receive the most to the bottom in the middle group, just over 60% and more than 30% , respectively. But after which, it has been climbing slightly by 10% until the last group.

In comparison, according to the quantity displayed in the graph, it can be palpable and noteworthy that a ~~rapid-opposite~~ trend was observed in the proportion of the generation learning for interest, rising from-one in ten to above two thirds. Meanwhile, the generation (aged) between 40 and 49 displays the same number in the purpose of both profession and hobby→ shares the same percentage for both professional and hobby purposes, standing at roughly 40%, and is given/receives approximately 35% of assistance which is more/higher than the lowest bracket but less than the next one (above 40%)/ receives roughly 10% more assistance than ←增加了同组的跨图对比,完整描述了一个组的全部信息

复盘:

1,首段尽量用上 what how why 全篇名词尽量不重复, 还可以用 those ones that counterpart 替代。定从和分词短语形容主语。不断改主语。is increasing, have..until..

2,找到 2 个不同的趋势+具体描述顶点底部,也可以用 the strongest support/ popularity / the most popular 表述。主语有there be, 人, 组, 公司。这里升降用了名词

3,按照趋势分段写, 相同的要写。主语有数据, 公司的支持, it。 数字用了分数, 百分数, from to, by,同位语 respectively。升降用了趋势 动词。

4, 主语有趋势, 组。数字用了分词, display the same number in, at。升降用了动词。

范文:

The bar graphs compare **the rates of** students **belonging to** various age ranges who pursued schooling 追求学业 for **disparate purposes** and illustrate the level of assistance given by companies.

Generally, in relation to 关于 age, the younger students aged under 39 study for career, while the oldest ones **learn more for** their interests. Also, the amount of aid provided oscillates with the increase in age.

Particularly, **80% of people below 26 years old study for career goals in comparison to only 10% of those doing schooling for interest**. 数据放开头, 自我比较 **Nonetheless, as the age rises, the former lessens and the latter ascends**, and they become equal in **40-49-year-olds**, at roughly 40%. In those aged above 49, the rate of those learning for their occupation **is much lower**, approaching 20%, than **that of those** 比较的时候注意要主语一致 studying for their passion, reaching 70%.

Concerning the support bestowed, students aged below 26 are given about 65% of time off and help with fees, approximately 15% **more than** the level of individuals aged 26 to 29.

In the other age categories, the percentages of aid are all below 50%, with **that of 30-39-year-olds being the lowest at only 35% or thereabouts**.

对比分析:

本文是联动描述,

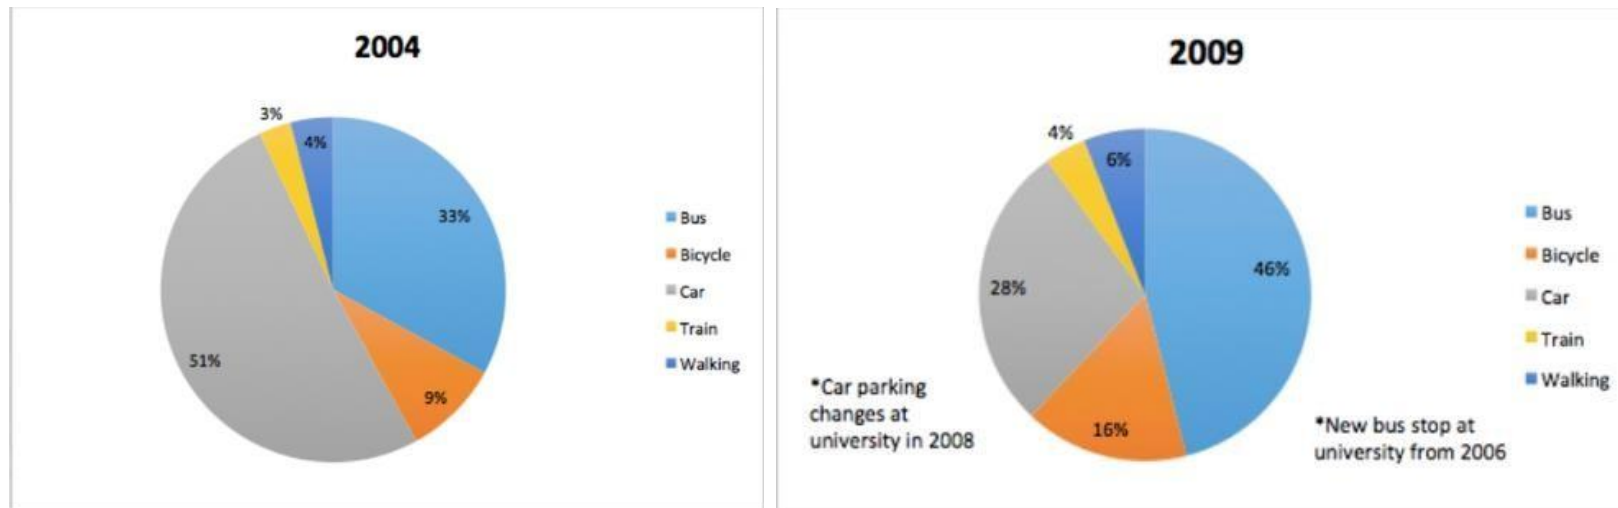

2,分析了图 1, 在 X 组前是目的一, 之后目的二。图二, 属于波动

3, 按图分组: 图一分析每个年龄组: 一个组的 2 个数据。随着年龄一升一减, 到了 XX 相等。到了 XX 更低了 less than

2, 图二:按照大小分组: 比较前 2 组 more than; 其他都在 50%以下, 其中XX 最低。

饼图

The following pie charts show the main modes of transportation people used to travel to university for work or study in 2004 and 2009. Please judge and select the key information in the chart and summarize it. If the information is related, please make the necessary comparison. You should write at least 150 words.

Given are two pie graphs illustrating the valuable information of how the residents commuted to college for work or learning purposes in both separate years of 2004 and 2009/ spanning half a decade due to the variation (多用于数据变化) changes of car parking and bus station.

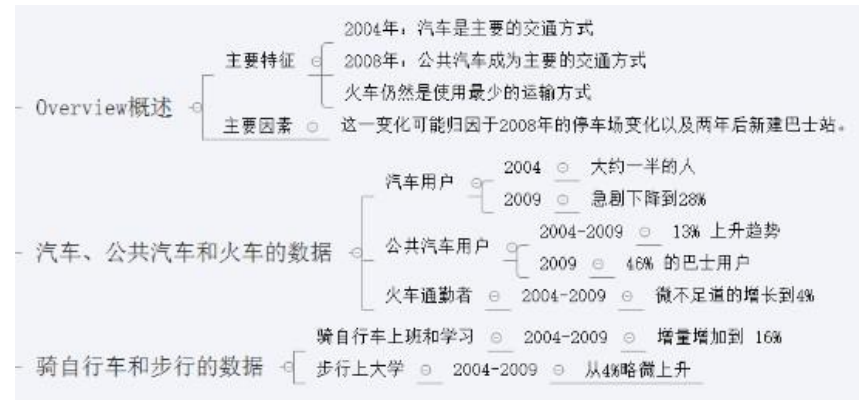

Generally, as can be apparently indicated from the two pictures, an expanding number of individuals are more likely to/tend to travel to campus by bus, train, bike and even walking, while driving cars is less popular way to commuting in both years. Furthermore, although more people take train to study or work over the 5-year period, it remain the lowest one → the least utilized method/ popular mode of transport in 2009.

Upon analyzing the data presented in the form of those two diagram, we can obviously witness in details that the percentage of individuals who prefer commuting to the aforementioned destination by bus displays a significant growth, rising from one third to less than two quarters, since a new bus station was constructed three years ago. Similarly, a considerable upward tendency was seen in the group of bicycle users 是人不是车 → the number of cyclists between 2004 and 2009, at approximately one in ten and

below one sixth respectively. **Meanwhile**, the figures for inhabitants who choose/choosing walking as the main/primary **approach/means** climbs slightly by 2% which is more than that of train in 2009(4%). ~~6% in comparison with 4%~~前文的主语没有顺序排序这样指代不明

In comparison, according to the quantity displayed pie graph, it can be palpable and noteworthy that there is only opposite trend /a sharply plunge from over half to **merely 28%** in the way of driving car → **amounting to 13% in the share of those using cars to 46%** because the university parking had changed ~~in~~ **after four years**.

范文:

一个个描述每个分组，第三段分别描述，第四段最后 2 个一起写“the former and the latter”

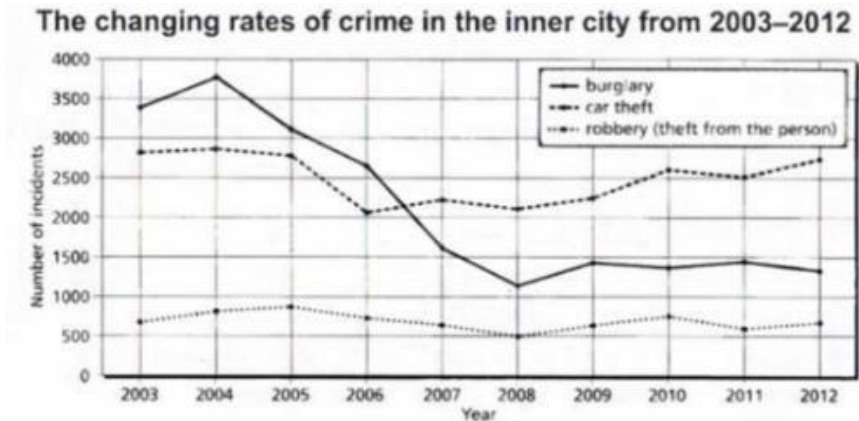

The pie charts compare the disparate means of transport for individuals going to a university **for work or learning purposes spanning half a decade**.

Generally,描述排序 **the primary mode of traveling to the aforementioned destination differed, with it being cars in 2004 and buses in 2009**, and the change could be attributed to the car park changes in 2008 and a new bus stop **two years prior to that** 早两年. On the contrary, trains remained the least **utilized method** of transportation.

To be specific, roughly half of the people proceeding to the campus drove cars in 2004, but the figure drastically lessened to merely 28% in 2009. By contrast, there was a noticeable uptrend **amounting to 13% in the share of those using buses to 46%**. **turning to/ Concerning the data of train users**, it had a trivial growth to 4%.

In addition to previously stated means, riding a bicycle 动名词和名词替换 and walking to the university were also done **by workers and students**. The percentages of both became more **sizeable, with the former** experiencing a comparatively greater level of **increment to 16%**, whilst **the latter** ascended marginally **from 4%**. ←两个数据同时描述“前者后者”

折线图

最简单，每条线分别描述，特征多的一段，少的两个一起，前后者。如果可以找到明显的对比趋势，就按照趋势分两段。

本题特点：很多持平的数据

Given is a line/curve graph illustrating the variations about how much three cases of crimes is in Newport's town center spanning a decade from 2003 to 2012.

Generally, as can be apparently indicated from the pictures, the three criminalities experienced fluctuating trends, with the rate of burglary decreasing dramatically during the period. In contrast, robbery was committed the least/most in this area in those years.= The data for robbery display a minor fluctuation between 500 and 1000 and it remains the lowest/least among all types of crime spanning the decade from 2003 to 2012

By analyzing the data presented in the form of this line diagram, we can obviously witness in details that burglary offenses had a total number of almost 3,500 incidents in 2003; they experienced a minor climb to less than 4,000 in 2004. Afterward, there was a significant decrease in burglaries, reaching its bottom at over 1,000 cases by 2008. In the following year, it rose minimally and almost remained at the same level until 2012.

Compared to that/ In comparison, according to the quantity displayed in the curve graph, it can be palpable and noteworthy, from 2003 to 2005, the figure for car theft and robbery cases nearly stayed at the same point, with approximately 2,800 and above 500 occurrences, respectively. However, in 2006, the former felony dropped gradually to around 2,000, while the latter fell erratically to 500 cases in 2008. In the succeeding years, auto theft instances fluctuated upwards and became the most committed crime in 2012, when they reached a similar number as in 2003 自我比较. In comparison, robbery incidents had roughly leveled off over the last six years.

表格

The table below gives information about the underground railway systems in six cities. Summarise the information by selecting and reporting the main features, and make comparisons where relevant. Write at least 150 words.

City	Date opened	Kilometres of route	Passengers per year (in millions)
London	1863	394	775
Paris	1900	199	1191
Tokyo	1927	155	1927
Washington DC	1976	126	144
Kyoto	1981	11	45
Los Angeles	2001	28	50

Given is a **sorted** graph illustrating some valuable statistics concerning the subway networks in various urban regions, in terms of/ **specifically regarding** the opening dates, the lengths/distance of routes and passenger flows

Generally, as can be apparently indicated from the chart, the metro system was constructed earliest/first in London with the longest line by far, followed by Paris, Tokyo and Washington DC **in that order= successively**, as well as that in Los Angeles →Meanwhile the system in Los Angeles **tends to be by far** newest among /of these six areas. Furthermore, Kyoto **ranks/ is ranked** sixth in both **categories/ aspects**, regardless of whether it's about the length of **the** line or **the** passenger volume **is considered** and Washington **has the same fourth ranking** in these same aspect as well

Upon analyzing the data presented in the form of this **sorted** diagram, we can obviously observe in details that there are four subway routes whose length is/traveling over 100 km-~~s~~, where that in London is roughly twice as long as that in Paris, →where **specifically**, the London route tends to be approximately twice as long as the Paris route/ **the railroad line, measuring/ traveling /covering/with the distance of** 394km and 199km respectively, compared with 11km in Kyoto and 28km in Los which ~~at~~ both cover below 50km **each**.

In comparison, according to the quantity displayed the graph, it can be palpable and noteworthy that the by far largest passenger flow is found in/ belongs to /tends to be that of Tokyo (1927 million-~~s~~ every year), followed by Paris with 1191 million-~~s~~ per year. Besides that, the passenger flows volume in Kyoto reaches the similar number as/**tend to be**

similar to that in **Los**, at 50 million a year. → the passenger flow volume in Kyoto is **comparable to that of** Los Angeles, reaching a similar number of passengers per year (50 million).

范文:

思路对比:

overall 段, 我用的是排序, 更简单; 范文是分析两列的关系, 更好

主体: 我: 一段一列, 长度: 100 上和以下; 客流量第一第二和 2 个差不多的

范文: 也是 100 上下分 2 组, 最新最短最长作为定语修饰;

按顺序分别说第一第二和合并差不多的数据, in the other 把每个都列举下,

本题特点: 很多除了, 例外

The chart provides statistics regarding the metro rail network in various urban areas.

Overall, **except for the data of Kyoto and Los Angeles, the older the underground system is, the longer the distance it covers.** 排除 2 个意外其他有线性规律 As for=in terms of the annual 每年 number of passengers, it does not **directly correlate with** the other two aspects. 无关

Particularly, the railway that opened first and the longest is the one in London, **starting its operation** in 1863 and traveling 394 kilometers. 同时描述多组数据 The rail networks in Paris, Tokyo, and Washington DC were established in 1900, 1927, and 1976, **successively= separately=** respectively, and their routes all cover above 100, **although the latter was only 126** 描述最少一个. **Despite that of Los Angeles being the newest, opening in 2001,** the kilometers traveled by that in Kyoto, inaugurated **two decades prior** (to that 早二十年), is the shortest at 11.

On the contrary, such railway system in Tokyo has the highest number of passengers, at almost 1.2 billion, followed by that in Paris, which **is the only one** 唯一 that superseded 1 billion. While those in Kyoto and Los Angeles only move no higher than 50 million **each** 合并数据, the **tubes** in the other two cities carry more than 100 million individuals **per annum** 每年, separately

地图

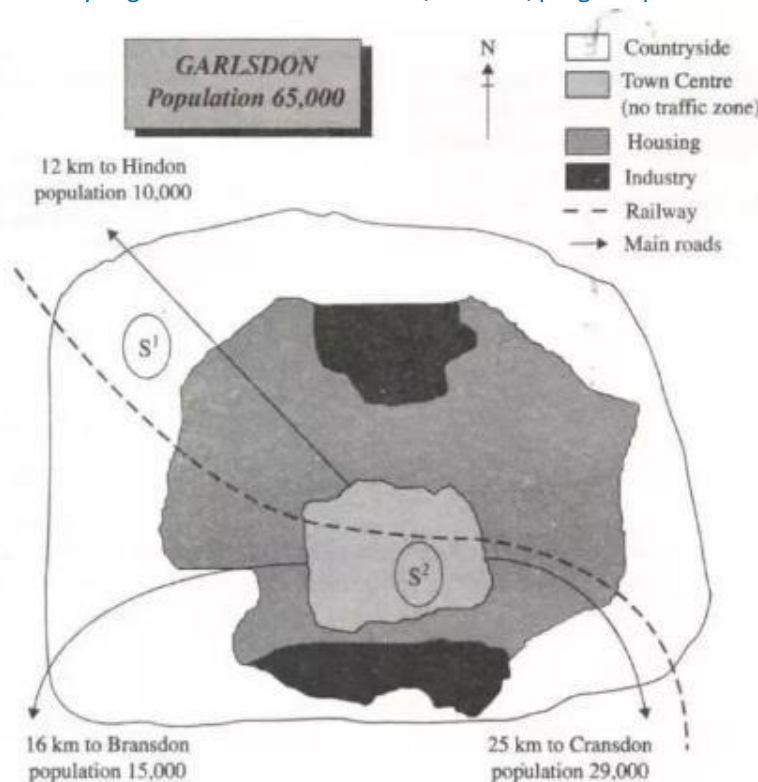

The map below is of the town of Garlsdon. A new supermarket (S) is planned for the town. The map shows two possible sites for the supermarket. Summarize the information by selecting and reporting the main features, and make comparisons where relevant. Write at least 150 words.

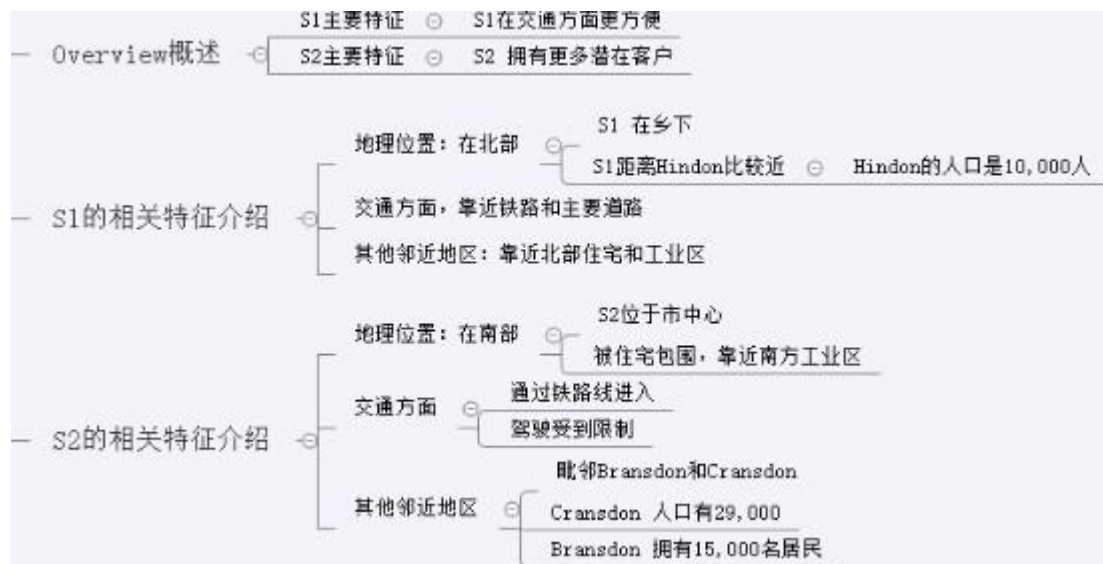

Given is a map illustrating where the two planning/proposed locations of for a new supermarket are in the town-called of Garlsdon with a residents of 65000.

Generally, as can be apparently indicated from the picture, S1 is situated between two main transportation routes, the subway system and roads, making it easier to access/making it more accessible for residents than S2 passing close by /which is located close to only one rail route/ within reach of the railroad line. Conversely, these two possible/ probable /likely/ potential area are all sited far away → a considerable/minor distance from industries/ the industrial region in both north and south.←按图算近

Upon analyzing the valuable information/location/progress presented in the form of the picture, we can obviously observe in details that one notable feature is the presence of S1 in rural area, the northwest of the town, 同位语 while S1 is adjacent to Hindon, a town with 10000 of population 10000 dwellers 数字放前面, situated approximately 12km away.

In comparison-with of the northwestern part of the map, according to the changes demonstrated/ that have taken place in the map, it can be palpable and noteworthy that in the downtown area of the region is a not traffic section/region= a place where driving is restricted surrounded/encircled by a large dwelling/ residence zone where another probable placement, S2, is established, accompanied by Bransdon, with a population of 15000 and Cransdon, with a population of 29000/ having inhabitants of 15,000← 口语中数字才可放前面, 书面语中定语后置, located 16km and 25km, respectively/ successively, away from S2.

范文:

Illustrated in the map are the likely locations of a new supermarket in Garlsdon, a town with a populace of 65,000.

Generally, **in terms of convenience in transportation, S1 is a better option, but considering the number of possible customers, S2 is a good place for the new supermarket.** ←更好

It could be easily seen that the first possible site (S1) is situated in the countryside, the northwest of the area, and between the railway and the main road leading to Hindon with 10,000 residents. It is also near some sections of the housing region and the industries in the north. The concern about this location is that it is distant from the other neighboring towns.

On the other hand, the second probable placement (S2) is in the southern part of the town center, encircled by the residences and in the vicinity of the industrial region. While **it is also within reach of the railroad line**, it is in a place where

driving is restricted. Meanwhile, **the main roads are directed to the adjacent places**, like Cransdon (population of 29,000) and Bransdon, **having inhabitants of 15,000, ending at the boundary of the center.**

室内 layout 题见 PDF-overview

流程图

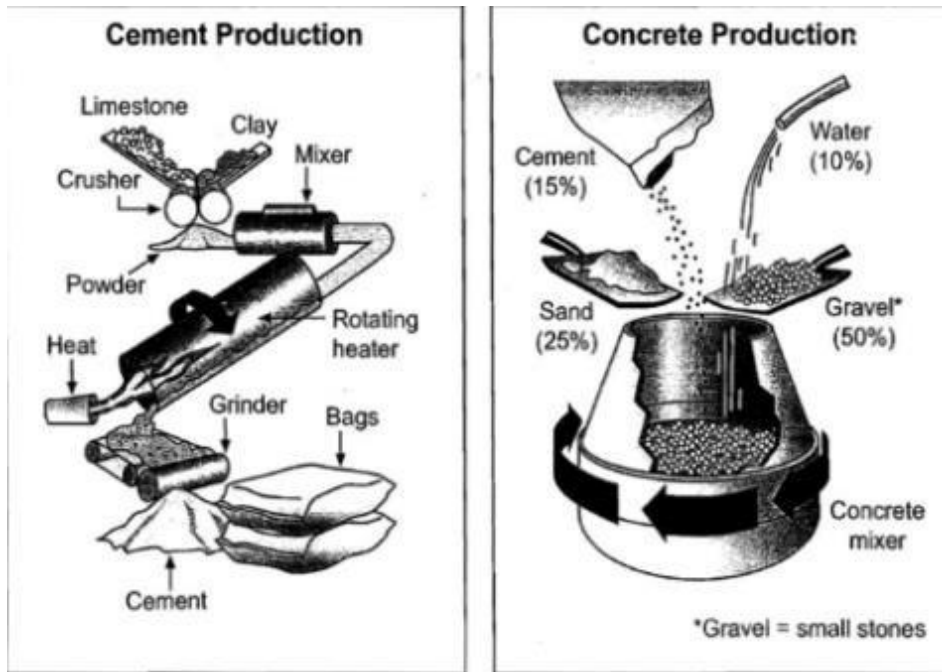

The pictures show the production of cement and concrete. Summarize the information by selecting and reporting the main features and make comparisons where relevant. You should write at least 150 words.

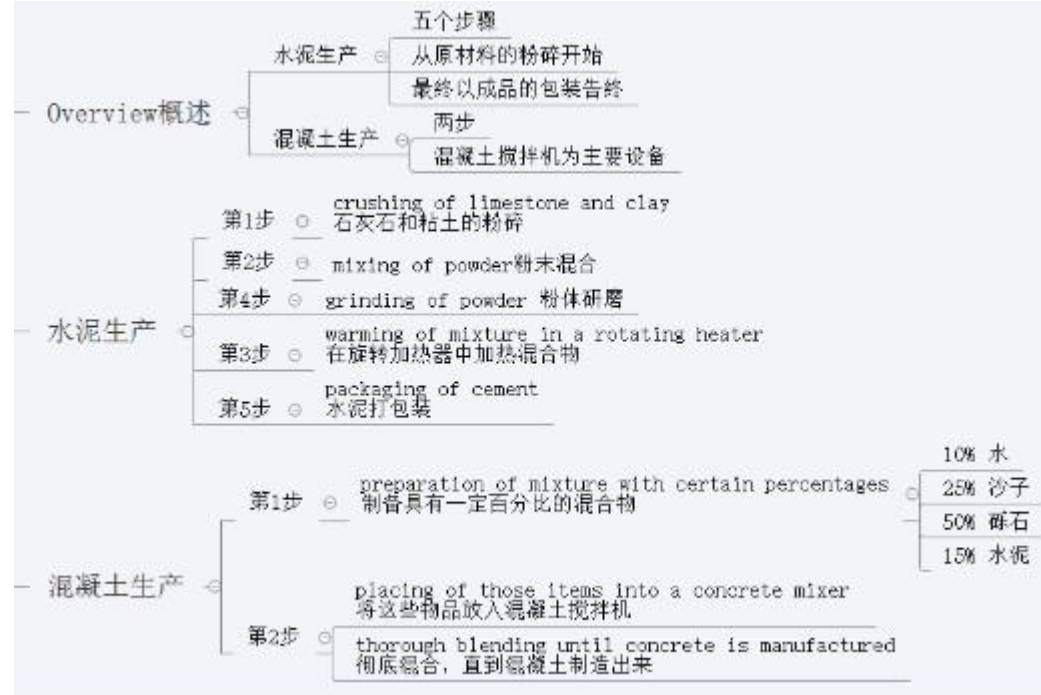

Given is a flow diagram/flowchart illustrating the valuable information about the **intricate** details of how to produce cement and concrete, and what raw materials and facilities are involved, providing a comprehensive overview of its **components**

Generally, as can be apparently indicated from the two graphs, the whole process of cement manufacture can be **meticulously** broken down into at least/is consisted of totally five distinct phases, starting from crushing and ending at packaging in the first picture. And there is a total of two processes during the concrete production in the other one. Each of these stages plays a **pivotal** role in the overall **sequence**.

Upon analyzing the steps presented in the form of the two diagrams, we can obviously observe in details that the process starts from/begins with preparing limestone and clay, and then put them into the crusher → which are then crushed and converted into powder. After which/ Following this, these materials can be combined/ **blended** in the mixer and subsequently be transported to be heated 被动强调本身被加热 passing in a Rotating heater/ transported to a Rotating heater for heating/ transported, passing through a Rotating heater for heating. Once the third step is accomplished/finished / Upon completion of the third step, the process moves on to the final step. Specifically, the heated material should be manufactured to cement, after having been ground completely. To complete the procedure, the finished/end product/commodity is **stowed/** packaged in **separate** bags.

According to phases displayed in the other flowchart, it can be palpable and noteworthy that during the initial phase, the four kinds of items (15% of cement, one in ten of water, one quarter of sand as well as half of gravel 加不加可以, 但是如果强调水泥总量的 15%则必须加 of)/the mixture of 15% cement... should be placed to in a rotating concrete mixer and **blended thoroughly**, until concrete is created ultimately/ eventually.

范文：

The diagrams illustrate how cement is produced and is ultimately used to manufacture concrete.

All in all, five steps are taken, commencing with the pulverizing of the raw materials and culminating in the packaging of **the finished product**, to make cement. Regarding concrete production, only two things are done, with a concrete mixer **as the main equipment**, but certain proportions of the materials are imperative.

To begin the making of cement, limestone and clay are crushed into powder, which is subsequently placed into a mixer connected by a pipe to a rotating heater, where the mixture is made warm. After being heated, the powder is ground to finally produce cement 我们更关注的是研磨粉末的动作是为了生产水泥，而不是粉末本身被生产所以不用被动。To complete the procedure, the finished product is stowed in separate bags.

In terms of concrete, its mixture is comprised of 15% cement, 10% water, 25% sand, and 50% gravel. These items are placed into a concrete mixer, and after being swiveled, ensuring that they are thoroughly blended, concrete is eventually manufactured.

Task2

1, discuss both, agree or disagree, advantage, positive trend

开头: In our contemporary era, an ever-growing/ expanding /augmented/ amplifying/increasingly of newspaper headlines/ the public issues have emerged as a focal point, highlighting the debate whether/where (改写题目论点), thereby capturing significant attention from diverse sections of society.

it is undeniable that (简单写一个反方支撑理由),which has led some individuals/ a segment of society to firmly believe that(改写题目反方观点)...Whereas/Conversely this statement suffers from both logical and **factual fallacies**, and it should be examined **meticulously**.~~In terms of X, X and X/~~Despite recognizing the **merits** and drawbacks behind the viewpoint, I definitely/strongly hold that...(别的用这个)/I definitely **endorse/** am in favor of this standpoint that (agree 用这个)we should prioritize (改写题目本方观点).(举例 xxx brings **substantial/concrete** benefits), which is supported by **cogent** and well-founded **arguments**.(遇到题干问是否是最佳手段时, 可以说 “should not be overvalued”
(不一边倒用这个: This essay will meticulously delve into both sides of the argument before cementing a personal viewpoint.)

主体 1: First and foremost, the justification for my preference for the first viewpoint is grounded in solid reasoning, particularly regarding/in relation to xxx.(e.g. Environment, society stability, economic advancement...), regardless of whether it's..or..is considered

Explanation: This stance is strongly rooted in the conviction that..... /The rationale behind this is rooted in the fact that... /This belief is based on the fundamental idea that.../This is due to the fact that..../This mainly because.... (说理句式)which means that.....especially

What' more, it holds a significant weight in modern epoch/society

必须有 example→ To be more specific, this can be best illustrated by the following example/ A detailed analysis./ To expound, as a case in point/ To illustrate,

①A recent research in relevant area/field conducted by (研究机构要编:例如 XX University, Beijing Academy of Environment and Science, 编一个与主题相关的机构) has found that/brought to light that....然后写你编的这个研究成果(举例 there is a clear negative/positive correlation between A and B, indicating that the higher.... and the lower/more .../the present dilemma of XX in china are getting increasingly serious, and../ “香港大学做过一个研究结果显示接受过教育的青少年罪犯在出狱十年后比没接受过教育的罪犯重新犯罪的可能性低 50%A study conducted by the University of Hong Kong showed that educated **juvenile offenders were 50% less likely to reoffend** than uneducated offenders **after 10 years of release from prison**) , fueling extensive public fascination and arguments/attention and debate.

②As exposed by the most up-to-date government report/ an up-to-date government report exposed/ Numerous worldwide studies have shown that/ as asserted in the latest governmental report,...(举例 many XX in china have benefited a lot through/suffered a lot from XX, and an increasing amount number of others are trying to do so/refusing to do), sparking widespread public curiosity and discussion

③如果举人的例子, 注意普遍性, 加上修饰词, To illustrate, Take a general/universal example/ case of a typical XX among **thousands/** who is similar with others/ who is the same as everyone else,

加一句虚拟/倒装

Consequently, From what I understand, it is certain that XX can be considerably beneficial in the terms of (观点浓缩,扣题)

主体 2 让步: Nevertheless, it should be pointed out that this pattern of viewpoint/belief is not without its own downside, especially when things are not going in the way they imagined. Admittedly, it is hard to deny that (改写首段的反方支撑理由)...., suggesting that(改写题目反方观点)....

(Specifically, xxx.) (如果是 both 题目就加这句, 用虚拟语气多分析反方一句,)

Conversely, based on what I have observed/from my perspective/ standpoint/my point of view, it seems that A/B/C 中选一个

A.反方说自己的优点, 以下 3 选一

(1) Compared with this insignificant/minimal advantage, the disadvantages of XX are **substantially** apparent

(2) The benefits of this phenomenon is temporary, not long-lasting.

(3) The audience group is in a tiny minority.

B 反方说我方缺点, 以下 4 选一

(1)上面优缺点换下

(2) This is a rare occurrence that is not universal.

(3) If the argument is carried out in this way, it is probable that the outcome will be less favorable than might be expected.

(4) It is indeed possible that this might occur in a few instances. However, it can also be readily resolved at a relatively/ **substantially** low economic and time cost.

C From a detailed analysis, such as the extensive research conducted by xxx, corroborates that xxx (← 不一边倒

Explanation 分析我方观点:To deepen this elucidation/Delving into deeper/ To expound/ This/which means that/That is to say/In other word,

+上段的(说理句式)(举例 In the majority of cases, for the ordinary person, it is a challenging achievement.

+说理, 论证方法 6(if....虚拟 B-3/...otherwise.../倒装) +或者 example 3 种: as a case in point, (举例)...

Therefore/as a result, It is only through (细化论点 2, 扣题)...that we are able toand the merits/advantages of XX are of obviousness./ such problems/dilemmas are to be solved through appropriate management of...

主体 3 (进一步支持本方观点有时间写) ~~On top of that/~~ Apart from/Furthermore, the evidence suggests that..., indicating/demonstrating that+句子/due to the fact that...Specifically, xxx 缩小范围 Meanwhile/in the meantime/in addition/no to mention that

similarly, ... be more likely to.....while...句内.leading to ... on the other hand (说理、举例或反例 By contrast/ in comparison

虚拟 Obviously, if we want to do XX, it would be much better to take the advice of 采纳 and put a special emphasis on the improvement of XX/there is no doubt that enough concern should be paid into the problem of XX. +倒装 had it not been for X, A would never (和结果相反,) .../Only in this way can way...只有这样我们才能

结尾 In a nutshell/To summarize, In light of what I have mentioned above, ~~the recapitulate in short/~~ I remain unwavering notion in my conviction that(本方观点) ...

while potential pitfall lurk in the backdrop, the arguments I have elucidated above robustly vindicated my stance/Despite the potential challenges and changing circumstance, the point I have outlined support my viewpoint convincingly

凑字数: As long as human nature remains imperfect, conflicting views will persist, and some may disagree with my perspective. However, I am confident that through exposure to my arguments, even those who hold opposing views may come to a compromise./ Even though there may be differing opinions/perspectives on the subject, I am confident that my opponents will be convinced by what I have presented/ by the evidence presented in my articles

2, report

开头: In our contemporary era, an expanding /augmented/ amplifying/increasingly of newspaper headlines/ the public issues have emerged as a focal point, highlighting the trend where (改写题目论点), thereby capturing significant attention from diverse sections of society.

The phenomenon is **palpable** and noteworthy, which need to be explored and spotted. This essay aims to **delve** deeply into the **underlying** reasons driving (problems/dilemmas caused by) this occurrence and suggest concrete solutions that could potentially **ameliorate** the issue effectively and efficiently.

在当今时代, xxx 的主题已成为焦点, 引起了社会各界的极大关注。(改写题目) 的现象是显而易见的和值得注意的, 必须加以探索和发现。本文旨在深入研究导致这种情况的根本原因 (由此引起的问题/困境), 并提出可能有效和高效地改善问题的具体解决方案。

理由 From what I understand, there could be several reasons for /loads of present dilemmas caused by this phenomenon, one of which is

问题 Unfortunately, based on what I have observed, it seems that there could be loads of potential dilemmas caused by this phenomenon, one of which is/ no matter how convincing the above/individuals' motivations are, problems still emerge along with this custom.

on one hand...on the other hand...

凑字数:Although this phenomenon have some positive/negative influences, I firmly believe that I should be seen as harmful/positive

结尾: To summarize/in a nutshell, despite the present dilemma, that/in which/which involves (改写题目),非限制性定从前后要用逗号隔开 is incontrovertibly multifaceted and intricate issue with an array of underlying causes and wide-ranging consequences, it is still imperative to acknowledge that what we need to consider is how to accept this trend as positive/ how to turn this trend to a positive one while simultaneously staying away from /avoiding its drawbacks. In light of what I have mentioned above, I am convinced that this calls for a joint effort from all sectors of society, and each of us has a role to play in this process/the measures taken would be more likely to bring about the desired improvements. 总而言之, 尽管 xxx 的困境是多方面和错综复杂的问题, 具有一系列根本原因和广泛的后果, 但我们仍然必须承认, 我们需要牢记的是如何接受这种趋势是积极的/如何将这一趋势改善为积极局面, 同时远离它的缺点。鉴于我上面提到的情况, 我相信这需要社会各阶层的共同努力, 我们每个人都可以在这进程中发挥作用/这些变化更有可能带来预期的改进。

凑字数: While there may be differing opinions/perspectives on the subject, I am confident that my opponents will be convinced by what I have presented/ by the evidence presented

in my article

Report 模板示例

看蓝色部分就行，文章论点论据内容随便写的

In many countries today people are living in a 'throwaway society' where things are used for a short time and thrown away. What do you think are the causes of it and what may it lead to? 原因+问题

In our contemporary era, an expanding /augmented/ amplifying/increasingly of newspaper headlines/ the public issues have emerged as a focal point, highlighting the trend where (改写题目论点) ~~currently~~ individuals /the greater masses have been living under a kind of society where individuals just prefering to utilize what they need for a short period and then dispose of ~~them~~ these items, thereby capturing significant attention from diverse sections of society.

The phenomenon is **palpable** and **noteworthy**, which need to be explored and **spotted**. This essay aims to delve deeply into the **underlying** reasons driving this **occurrence** and the potential dilemmas caused by this public phenomenon and suggest **concrete** solutions that could potentially **ameliorate** the issue effectively and efficiently.

原因

From what I understand, it is certain that there could be several reasons for this phenomenon, one of which can be rooted in the key understanding that/ a primary **catalyst** for this **concern** is stress, a fact that can be rooted in the key understanding that these years the increasingly number of individuals, especially young crowd, have been living in the rapid-paced environment in the face of various responsibilities and daily chores, contributing to the amplifying need of convenient items which can save money and energy for other activities. Take a classic example of the one-time packages **the disposable plastic packages/the single-use food packaging**, after having meals, individuals just need to throw them away without washing dishes, spoons, **forks** and the like, **particularly in** outdoors where it is hard to find clean water and suitable kitchen utensils. **Moreover, it must be realize that** in most circumstances, the disposable items are cheaper than other ones with high quality, reducing living cost. **As a consequence**, majority of individuals tend to use these kinds of products for a short time(扣题)

Another substantial factor contributing to the escalation of this problem is **herd mentality/ group/ crowd psychology**, chiefly **attributable to excessive** advertisements. Every age groups are surrounded by a diverse range of advertisements and can see them no matter where they are, **regardless of whether** they are scrolling on social media at home or waiting in the subway station, making it more **accessible** to acquire up-to-date information about **latest** commodities, **including electronic devices** like smart phones and robot vacuum cleaners, **but not limited to**. **Therefore/Because of this/Owing to this**, (扣题) individuals of all ages tend to frequently purchase something new or updates what they have had/**existing** objects to keep up with what is trending recently and boost overall living standard. **Furthermore**,(虚拟) if almost all of their circle have **weeded out/left** something outdated, they might be likely to buy the latest products in the attractive advertisements like who are around them due to peer pressure.→其实可以拆成 2 个理由，广告的引导和科技迭代快改善生活

问题

Unfortunately, based on what I observe, it seems that there could be loads of potential dilemmas caused by this phenomenon, one of which is/ no matter how convincing the above/individuals' motivations are, problems still emerge along with this custom. A primary/main outcome/effect resulting from this sort of conduct is environment destruction, **which can be rooted in the conviction that** the more frequently they buy the new products and throw the old ones, the greater quantities of garbage they would produce, and then it is

necessary to waste more energy to cope with these wasted resources, like burning them by the fossil fuel which lead to air contamination, or fill them ~~into~~ underground which result in land pollution and is harmful to the use of land for more essential activities like food cultivation ~~may take up other green space like farms.~~ To deepen this elucidation/ Delving into deeper, this can be best illustrated by the following example, a recent research in relevant area/field conducted by Beijing **Academy** of Environment and Science has brought to light that there is 50% land that is appropriate for planting grain and crop used to be a place for filling waste in **the last ten years**, fueling extensive public fascination and arguments Another related/relevant consequence is that people become **overly materialistic**, which means that they fail to recognize **what is important** as they unreasonably **indulge in unnecessary expenses**, which could lead to/ result in **selfishness** and sometimes **endless debts** in the end. In other words, If.. might not...they might find it adj. to do ... 假设+虚拟 AS a result, 倒装 had it not been for X, A would never 和结果相反

措施

Considering the **severity** of the issue, in reaction to these precipitating elements and a amplifying number of consequences resulted from the escalation of these problems, obviously it is high time to put an end to the trend. Because of this, / it is essential that several effective resolutions/measures should be taken/approved to **mitigate/alleviate** these potential problems/tackle the problems/dilemmas/ obstacles/ difficulties/ challenges (and put special **emphasis** on the improvement 进展 of XX)

Foremost among these is the imperative to **launch** some education campaigns and **outreach** activities for **preaching** the significance of environment protection. For example, children could be taught about how to protect ecological environment in class, and homeowners could be informed of the environmental impact of household waste. The fundamental responsible supporting this proposition is the right awareness and **conception** can guide appropriate daily conducts. To expound, as a case in point, as asserted in the latest governmental report, hosting publicity campaigns to raise public awareness and regulate the behavior of citizens can alleviate population effectively and efficiently, **sparking** widespread public curiosity and discussion.

Furthermore, there is a crucial requirement to the corporations, with the reasoning for this strategy rooted in their responsibility for society and the environmental sustainability. To be more specific/ which means that, this can be done by introducing laws to limit/deter/discourage **contaminant** emissions from factories or to **forcing** firms to utilize **renewable** energy from/ in terms of **solar**, wind or water power and more/and others/and so forth/and the like/ or whatever (to those who..)

Last but not least, the most desirable preventative measure against wasted resources is that there could be punishments for people who fail to adhere to the regulations about household waste sorting, ranging from a small fine to community service, or even perhaps **prison sentences** for **repeat offenders**.

As a consequence/ Consequently, only in this way can we...

结尾

To summarize/in a nutshell, despite the present dilemma,~~where~~ that/in which/which involves (改写题目), is incontrovertibly multifaceted and intricate issue with an array of underlying causes and wide-ranging consequences, it is still imperative to acknowledge that what we need to consider is how to accept this trend as positive/ how to turn this trend to a positive one while simultaneously staying away from /avoiding its drawbacks. In light of what I have mentioned above, I am convinced that this calls for a joint effort from all sectors of society, and each of us has a role to play in this process

凑字数:

While there may be differing opinions/perspectives on the subject, I am confident that my opponents will be convinced by what I have presented/ by the evidence presented in my articles

Example:

话题	论点	原因	例子
教育	教育让人更有竞争力	教育提供了技能和知识	掌握多门外语的求职者在国际市场上具有竞争优势
	教育让人心里和身体更健康	教育有助于人们了解健康的生活方式	通过学习营养学，人们可以更好地了解如何平衡饮食
	教育让人更开心	教育使人们更有信心地面对生活中的挑战	受过教育的人在处理财务问题时更加冷静和理智
	教育让社会更稳定	教育降低犯罪率和贫困	受过教育的人更容易找到工作，减少犯罪可能性
	教育让经济更发达	教育培养了具备专业技能的劳动力	高素质的劳动力可以推动创新和生产力的提高
	教育让人有压力	教育竞争激烈，增加了心理压力	为了考上好大学，学生不得不努力学习，牺牲休闲时间
	教育减少孩子休息和放松的时间	学习任务繁重，占用了大量时间	为了完成家庭作业，孩子不得不熬夜学习
环保	环保让人更健康	减少污染，改善空气质量	减少工厂排放，使周围居民呼吸到更干净的空气
	环保促进经济发展	创造新的绿色产业和就业机会	发展太阳能产业，为失业者提供新的工作机会
	环保增强人们的素质	提高人们对可持续发展的认识	通过环保教育，人们学会节约资源和减少浪费
	环保让人们生活的更开心	保护自然环境，提供休闲和娱乐场所	保护公园和绿地，为市民提供休闲散步的场所
	环保影响经济	对于高污染产业的限制可能降低产值	限制煤炭开采可能导致能源价格上涨
	环保影响工业等的发展	更严格的环保法规可能增加生产成本	高污染制造业可能需要投资新技术来满足环保要求
科技	科技让生活方便	提供便捷的交通和通讯工具	智能手机使人们随时随地保持联系
	科技让就业更多	创造新的就业领域和岗位	互联网技术为程序员和网络安全专家提供了就业机会
	科技让增长寿命	发展现代医疗技术，提高生活质量	新的医疗技术使得癌症等疾病的治疗更加有效
	科技让经济发展	促进生产力的提高和创新活动	人工智能和自动化技术提高了工厂的生产效率
	科技会破坏环境	一些高能耗、高污染的科技可能导致环境恶化	核能事故可能导致严重的环境污染和生态影响
	科技会带来压力	高速发展的科技使人们生活节奏加快	随时随地的工作沟通让人们难以摆脱工作压力
媒体	媒体让人快乐	提供丰富的娱乐内容和资讯	观看喜剧节目、电影和音乐会让人心情愉悦
	媒体让人们生活更高效	提供实时的新闻和信息，方便决策	通过手机新闻应用，人们可以迅速了解国内外大事
	媒体促进经济发展	媒体广告为企业创造营销机会	通过电视和网络广告，企业可以吸引更多潜在客户
	媒体增加就业	提供多样化的职业岗位和发展空间	媒体行业包括记者、编辑、摄影师等多种职业
	媒体会减少面对面交流	过度依赖媒体沟通可能导致人际关系疏远	青少年过多使用社交媒体而忽略与家人的交流
	媒体可能传播虚假信息	缺乏核实的信息可能误导公众	网络谣言导致人们对某一事件产生错误的认识
犯罪	犯罪是由于缺乏法律意识	知识欠缺导致对法律后果的无知	一些青少年盗窃行为可能是由于对法律后果的无知
	犯罪是由于冲动	情绪失控导致的非理性行为	一场激烈的争吵可能导致一方在愤怒中做出伤害他人的行为
	犯罪是由于缺乏教育	教育水平较低的人群可能更容易犯罪	没有受过教育的人可能更容易受到犯罪的诱惑
	犯罪影响社会治安	犯罪活动破坏了社会秩序和安定	暴力犯罪和抢劫事件导致市民对社会治安的担忧
	犯罪是由于影响身心健康	心理问题和生活压力可能导致犯罪行为	抑郁症患者可能在情绪低落时做出危害自己或他人的行为
	犯罪是由于影响个人发展	犯罪行为给个人名誉和事业带来负面影响	被定罪的人可能很难找到新的工作或融入社会
文化	文化促进经济	文化旅游和创意产业为经济增长提供动力	埃菲尔铁塔和卢浮宫吸引了大量游客，刺激法国旅游业发展
	文化增强人们素质	文化教育提升人们的审美和道德观念	古典音乐和美术作品的欣赏可以提升人们的审美素养
	文化促进社会稳定	文化传统和信仰使人们更团结和和谐	节日庆典和传统习俗使不同族群和年代的人们产生共鸣
	文化让人们更自信	对本民族文化的了解和认同增强自豪感	了解中国传统文化的丰富与博大使人们对自身文化更有信心
	文化会带来冲突	不同文化之间的差异可能导致误解和冲突	东西方文化在价值观和习俗上的差异可能导致误解和矛盾
	文化可能造成误解	对其他文化的误解和刻板印象可能导致沟通障碍	不了解印度敬拜偶像的礼仪可能导致外国人对其产生误解
政府	政府帮人解决问题让人更开心	政府提供基本服务和保障民生需求	政府提供的医疗保障和教育资源使民众生活更安心
	政府帮人解决问题增强政府的声誉	良好的社会治理提高了民众对政府的信任度	政府有效应对自然灾害，使民众对政府的领导力有信心
	但是政府解决问题效率不高	官僚作风和体制问题可能导致效率低下	办理一些政府手续可能需要很长时间和繁琐的流程
